Eric Jaworski  
Frank Robinson  
Tianni Rutt

A. The next Cannabis Law Committee (“CLC” or “Committee”) meeting will be held at the same place, on January 5, 2016, at noon.

B. The first topic of discussion was the Committee’s outreach efforts to other state cannabis law committees. Mr. Frieling reported that he has had contact with Bernard Jocuns, an attorney in Michigan who is involved with that state bar’s cannabis law committee. Michigan has 450 members. Mr. Jocuns will attend next month’s meeting by phone.

C. The next topic of discussion was the desire of some committee members to create a listserv where members can ask questions and share expertise. After some discussion, Mr. Argeros made a motion to create a listserv for the CLC, Mr. Trunnell seconded the motion, it passed by acclamation. An agenda item for next month’s meeting will be to discuss the administration of the listserv. Mr. Trunnell will reach out to the bankruptcy listserv to ask questions about administration.

**RESOLVED**, the CLC will create a listserv for its members.

D. Mr. Wilson provided an update on the issue of inviting more attorneys from the regulation side of cannabis to be members of the CLC. Mr. Wilson reported that he reached out to his contacts in the AG's office and did not receive a response. Mr. Wilson and Mr. Gerrisen have agreed to work together to further this objective.

E. Mr. Detsky reported that he had two articles published: one in the Products Liability Section of Law 360 and one in the Cannabis Law Journal.

F. Mr. Ilenda gave a presentation of an outline on how an environmental CLE could be presented. The presentation will be continued to next meeting.

G. Mr. Brett Moore from the Colorado Cannabis Chamber of Commerce gave a presentation on the legislation concerning cannabis from the last session.

The meeting was adjourned at 1:47pm.
