Special Thanks to the Diversity in the Legal Profession Committee of the CBA/DBA

The Workplace Diversity reception provides a networking forum between those of diverse backgrounds including racial and ethnic minorities, disabled, and gay, lesbian, bisexual or transgender students and attorneys from the Denver metro legal community. This event provides students the opportunity to meet judges, private practitioners, corporate counsel, government/public interest and alternative career attorneys. Your participation promotes awareness of the necessity for diversity in the workforce and of mentoring as a vital component of success. We look forward to your attendance.
