

Health & Disability Insurance: Health & Child Care Savings Accts — Options & Opportunities for SSF Owners

Home study is available

Please contact [Ashley Brundage](#) to receive the home study presentation and materials

These 90-minute sessions focus on health care and disability insurance options available to both solo practitioners with no employees and SSF owners with employees. Our presenters Angela Rudolph and Jessica Smith will focus on medical, dental, and vision insurance available through private industry providers and the state's Connect for Health Colorado platform, as well as disability insurance offered by personal insurance companies.

This course also addresses establishing accounts for flexible spending, health, and child care savings accounts, and whether these saving vehicles are available to/viable for solo practitioners, as well as legal and regulatory issues that may arise with such saving accounts.

The Practical Lawyer CLE Series is intended to provide solo and small law firm owners the knowledge needed to successfully run a small business, incorporating the duties of attorneys toward their clients under the Rules of Professional Responsibility. Each Practical Lawyer seminar focuses on an aspect of operating a law firm, with some content presented as a “how-to” tutorial on topics such as succession planning, developing a business plan, choice of entity, or creating a library of necessary firm documents, including engagement letters and conflict waivers.

Session B: All SSF Owners with Employees - both Solos and Small Firm Owners
