PREFACE

These materials were written to supplement *Street Law: A Course in Practical Law*, 7th Ed. (McGraw Hill Glencoe, 2005). *Street Law* is a high school law-related education text that provides practical information and problem-solving opportunities that develop student knowledge and skills necessary for survival in “our law saturated society.” The text and its integrated practical advice and competency building activities are designed to provide students with the ability to analyze, evaluate and, in some situations, resolve legal disputes.

The Colorado law reflected in this supplement was accurate at the time of publication. However, law constantly evolves, frequently on a day-by-day basis, through revised statutes, changed rules and court decisions. As a result, the text should be understood to be an introduction and not what the law is.

As with the *Street Law* text itself, this supplement is intended to be used by lawyers and teachers in partnership in the high school classroom. The Colorado Bar Association or your local bar association is available to help you find an attorney to assist you in the classroom.

For additional law-related education resources or information on the law, please see the Colorado Bar Association website at www.cobar.org or the website of the Colorado courts at www.courts.state.co.us.
